## PROJECTS

---

DB-DRAWER --- JAVASCRIPT, PROCESS MANAGEMENT, EJS, EXPRESS, NODE, ORMS

- db-drawer is a (made it open-source with MIT License) cli tool for visualising your database schemas. db-drawer checks the data model schemas of your project (".models") folder and visualises by running on localhost in node environment. it attaches to your project as an npm package. Currently, we have support for mongoose and sequelize ORM only.
